

The Role of Technology in Mankind's Evolution

Will We Become Creators?

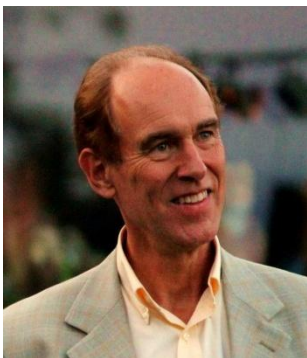

Location: NY Branch of Anthroposophical Society in America
138 West 15th St, (between 6th & 7th Aves), Manhattan NYC
212-242-8945; www.asnyc.org

From robotics to human-machine hybrids, artificial intelligence, avatars, and the Singularity: is this our human future? Why must we deal with machines for our evolution?

The Western Path.

Thursday Sept. 24 7 - 9 pm:
Lecture

Guest Speaker: Andrew Linnell is a 41 year veteran of the computer industry and a graduate of the University of Michigan (MSE '73) and Emerson College, England ('79). A member of the Anthroposophical Society since 1979, he is president of the Boston Branch, faculty member for the Village University of Concord, and member of the School for Spiritual Science. He has spoken to branches and libraries throughout the USA and abroad on various topics from Quantum Physics to Dangers from Nanotechnology to Christian Mysticism.
